(SM)all is better

Needing only 0,12m² of space and a power supply, the CINO XX PB brings the availability of speciality coffee drinks to any location with creamy Cappuccinos, satisfying Latte Macchiato and perfect Café Au Lait for customers, guests and staff. At the simple push of a button or drop of a coin, a fresh speciality drink is brewed and perfectly presented to the consumer.

Unpack - Fill - Enjoy

CINO XX PB, "the little Italian" is simply the most cost effective solution for perfect hot drinks in the small location.

Simple - Mobile - Flexible

Whether in the office, the conference room or showroom the CINO XX PB is always ready to provide a fast and unobtrusive service bringing quality drinks and a touch of class to any location.

Brewing system

Roasted coffee brands are the basis for our modern event with freshly brewed coffee. Freshly ground, brewed with water at 92 °C and finally filtered according to the old tradition. With the Top-Stop method our modern micro-brewer releases the finest aromas and acids which are so important to the traditional coffee taste. At the same time CINO Presso-Bean conjures up a fine, light creme.

The original Italian grinding fineness and the necessary 9 bar pressure unfold the rich Espresso aroma. With our patented SpeedMix system we put a light, fluffy Cappuccino top on a strong Espresso. Cappuccino & Co is ready. Trend coffees to the original recipes. CINO does it automatically.

Design and Colours

Casing: Steel, RAL9005 Black
Door: Plastic - Silver

User friendly technology Prices

Ingredient and water quantities are simple to set using the built in pro-

Presso - Bean-System

gramming system with the LED display and selection buttons. The individual programmable cleaning and rinsing program makes routine cleaning quick and simple. All parts of the mixing system are quickly and easily removed without tools and completely dishwasher safe.

User friendly operation Drink
